THE IMPORTANCE OF COLLABORATION & LEVERAGING RESOURCES ACROSS SYSTEMS

Partnerships are still the best path to building system capacity.

- ▶ No single source of funds or resources is able to respond effectively to people with disabilities, who often face multiple barriers to employment (and every agency cannot be the funder of last resort).
- ▶ Partners can include Medicaid, Developmental Disabilities, Vocational Rehabilitation, Behavioral Health, Workforce (American Job Centers and Workforce Development Boards), Education (school-age, adult education, post-secondary education), Juvenile Justice, Child Welfare/Foster Care, Ticket to Work, Aging, Career Pathways Programs, community sources.
- ▶ Resource coordination across systems is required for successful systems transformation and success at the agency level.

THANK YOU!
